

MONIMAX™ 8200

Value, Delivered

Cash recycling ATM for unsurpassed amount of convenience and speed to customers

Features

- **Optimum Solution** - Advanced cash recycling technology built by Nautilus Hyosung can help financial institutions to benefit from lower cash management costs and improved availability of ATM network. With an optional check acceptor, check deposit service can be also provided.
- **Unsurpassed Flexibility** - Monimax 8200 offers multiple options from cash dispensing, cash deposit and cash recycling. All 5 cassettes can be operated independently as dispense, deposit or recycling mode to enable optimum utilization of the cassettes for an effective ATM operation based on the environment.
- **Environment Stewardship** - With quality comes also responsibility. Monimax series are equipped with energy saving features including low energy consuming LCD, CPU and long lasting ATM parts with minimum implications to the environment. Cash recycling feature also saves tons of service requirements and paper over time, giving you the power to become environmentally friendly company.
- **Flexibility** - Monimax series are designed with open architecture platform allowing for easy future upgrades and module modifications as modules are interchangeable across Monimax series. Modular design is one of ways to save our customers' cost and provide maximum return on their investment.
- **Ultimate User Experience** - With the newly installed 21.5" vertical touch screen interface, financial institutions can engage and interact with the customers in an highly inviting manner. Big touch screen with user friendly interface design create enhanced customer experience and facilitate customer adoption.
- **Maximum Protection** - Complying to standards in all regions worldwide, Nautilus Hyosung continues to offer up-to-date and complete suite of security solutions to protect the customers and valuable assets. Monimax 8200 can be integrated with any monitoring solutions to provide seamless data transfer for effective management of the self-service network.
